

CITY OF CHICAGO RESTAURANT AND BAR COVID-19 CUSTOMER GUIDANCE

Indoor dining is safest if you are vaccinated! Indoor dining poses risks for unvaccinated older adults, unvaccinated individuals with health risks and unvaccinated members of their households.

The Chicago Department of Public Health recommends the following for all visitors of restaurants and bars:

- Choose outdoor seating when possible. Outdoor is much safer than indoors.
- The more distance the better. Stay 6 feet away from other patrons.
- We recommend you keep your mask on whenever interacting with your server or others outside of your party, or anytime you leave your seat.
- If sick, stay home and get tested for COVID-19.

Getting vaccinated for COVID-19 is the best way to protect yourself from COVID-19 and allows you to enjoy restaurants and bars more safely.

Businesses may refuse service to anyone who does not comply with COVID-19 safety policies.

Consumers are encouraged to use the CHI 311 system (call 3-1-1, use the CHI311 mobile app, or visit 311.chicago.gov) to report businesses that do not adhere to the capacity and social distancing limits.
